WAR NEEDS NATURALLY GROW AT GREAT RATE

Cereal Crop News Exceptionally Favorable. Says "Hudson's Review."

New York, April 12.—War needs naturally grow at a great rate and industrial operations in lines essential to them continue to expand. Cereal crop news is exceptionally favorable, whatever may be conjectured as to storm effects on northern fruits and southern truck. Wholesale trade in staple commodities is probably as active as could be expected, seeing that supplies are short, that quotations are inordinately high and that the government gives some indication of eventually extending a firm grasp over the price situation in many lines of manufacture. But prices seem to cut less of a figure on civilian purchases than does the evident fear of a paucity of goods, especially of textiles, and therefore many reports disclose heavy buying not only for immediate delivery, but for future shipment as well.

On the other hand, activity in retail trade has simmered down since Easter, and business events within the current week were materially curtailed by cold, stormy weather.
